SUMMARY

- I am a Meta-certified React Developer with over a year of experience in creating dynamic and responsive frontend websites. I specialize in React JS, with certifications from Meta and Google for Git & GitHub, ensuring efficient version control and collaboration. I am committed to continuous learning and excellence, staying updated with the latest industry trends and technologies, including backend development with Express, MongoDB, and Node. My skills include frontend development, responsive web design certified by FreeCodeCamp, and Google-certified Git & GitHub proficiency. I am dedicated to delivering impactful, high-quality web solutions and am ready to bring your vision to life with cutting-edge web solutions. Let's discuss your next project.

EXPERIENCE

Web Developer — Feb '24 — Mar '24
CodesFix — Bahawalpur, Pakistan
- I learned HTML, CSS and Javascript here along with responsive designs and also developed a site which will take a paragraph as an input and will send it to AI to extract keywords and on the basis of the keywords it will generate hashtags and also re-generate a paragraph which will include all those keywords and hashtags.

Chrome Extension Developer — Mar '24 — May '24
Bytelogist — Bahawalpur, Pakistan
- I learned and developed several Chrome Extensions including a Youtube Automation Extension which would automatically play the 1st video on the youtube Like, Subscribe the channel and comment on the video accordingly with the help of AI.
